Online Safety

Tuesday 6th February is Safer Internet Day, which is the UK's biggest celebration of online safety. To prepare our children for some of the online safety activities going on in school next week, our Talk Assemblies this week focussed upon the differences between being online and offline. All children identified the uses of being online and the advantages the internet can bring to our lives. We also discussed the importance of being offline, including the benefits of socialising with people. We all agreed on some important rules for keeping safe online, including the need to report to a trusted adult if online behaviour makes you feel upset, confused or worried.

Porridge in Reception

FS2 have been learning the story of Goldilocks and the three bears and today made porridge - which was just right!

The children have been practising telling the whole story with actions. I have a planned visit to watch their performance next week!

School Council Meeting

The school council had a productive meeting on Wednesday. Each member of the council took turns to go around the table to share the results of their library surveys. As a whole school, findings tell us that children at Rivelin would like to see more neutral tone seating and soft furnishings that encourage children to sit together to share books. They also found that children want more books based on travel and tourism, as well as a desire for comics, adventure and horror books! The school council will meet again next week to find suitable resources based on their available budget. Of course, any further funds raised will add to the budget, so please buy a cake at the upcoming Valentines PTA Bake Sale next Friday 9th!

Upcoming Africa Study in Y2

Have you or your family ever lived in Africa or visited Africa? Would you be willing to come into school and talk to our Year 2s about living in Kenya or other African countries? In the Summer term our Year 2 classes will be learning more about the amazing continent of Africa. We would absolutely love it if we could have visitors to speak at first hand about this amazing continent. Please email enquiries@rivelin.sheffield.sch.uk and mark for the attention of Mrs Leggatt.
