Miss Spencer - EYFS Lead

**25.04.25**

This week we have started a new activity in nursery - Story Dough! Story Dough is a great activity for developing the children's physical skills, communication and language and their imaginations. They had lots of fun saying silly rhymes, creating 'custard fairies' and trying out the play dough tools.

We look forward to going on lots more 'inventures' (adventures where you invent things) with Noodle and Titch very soon.

### Lifecycles!

In Reception, we have been thinking about lifecycles, ahead of the arrival of our caterpillars! We reflected upon our previous learning of the lifecycle of a chicken, and learnt about the lifecycle of frogs and caterpillars. The children have been keen to recreate the lifecycles in the provision - here is Marcie's lifecycle of a frog! Finley made an amazing hungry caterpillar with the blocks! Ask your children about some of the amazing vocabulary they have learnt - chrysalis, metamorphosis and lifecycle.
