Issue 26

Date: Friday 16/05/25

### KS2 SATS

There's no other place to start this week then saying an enormous well done to all the Year 6 children for completing their end of KS2 SATS. Each and everyone one of you has shown the highest levels of determination and perseverance and I'm sure you have all done yourselves very proud. All the hard work has paid off! Well done all of you!

### Butterflies in EYFS

Over the last few weeks in Reception, the Bumblebee classes have been carefully looking after caterpillars. This week the caterpillars finally transformed into beautiful butterflies! The children really enjoyed seeing this miracle of nature and loved seeing these wonderful creatures.

### Staying safe in the sun

It's been a lovely week this week weather wise with the sun shining. As the temperatures continue to get warmer as we move into summer, please make sure if possible that your child comes with: a water bottle to drink, some sun-cream applied and a sun hat. This will help your child keep cool and stay safe in the sun!

### Core Value of the week: Determination

I've seen so much determination in school this week and it was wonderful to celebrate this crucial Core Value in Celebration Assembly this week too. George in Ladybird class shone for her determination in her writing this week and Amelia in Tawny Owls also really impressed Miss Smith with all the hard work she has put in to all her learning. Well done to you both and everyone who got a certificate this week!
